DETAILED ACTION

Response to Amendment

1. The After Final amendment filed June 2, 2008 will not be entered because it raises new issues that would require further consideration and/or search. Claim 1 has been amended to recite the limitation of "wherein said semiconductor apparatus further comprises a first polysilicon layer and a second silicon layer that is separate from the first polysilicon layer". This raises new issues for consideration because the previous limitations of claim 1 did not require a second silicon layer that is separate from a first polysilicon layer.
